

TEAM BUILDING WORKSHOPS

Amazement SQUARE

THE RIGHTMIRE CHILDREN'S MUSEUM

“BUGGY BUSINESS”

Business Professionals will now have the opportunity to explore Amazement Square on a whole new level by participating in Team Building Workshops! Workshops are offered during non-operational hours anytime after 5:30 on weekdays or weekends. Workshops last 2 hours and are followed by refreshments in our Community Room. At just \$25 per person, these workshops allow your workforce to enhance their professional development in an environment that is both fun and educational! Whether an office retreat or a workplace treat, Buggy Business Workshops are a perfect way to enhance your team's interoffice communication and skills.

Workshop Option #1: *Building Your Team From The Ground Up*

Under the magnifying glass: This workshop enables your worker bees to understand the importance of interaction and allows them to contribute as a team to the bigger picture- the success of their hive!

- Your Worker Bees will learn the nuts and bolts of working as a team as they work to build our Habitat House in the Once Upon a Building Gallery. This 12'x12' structure requires your team to strategize and prioritize as they assemble everything from the base to the roof of this house, all before their foreman calls time!
- There is more in a days work in this workshop! Your team will choose a foreman and attempt to move monuments at our Crane Station. Team members will have to rely on the coaching of their foreman and work together to turn all the right wheels on our mechanical crane to complete this task!
- At the Hamburger Helpers Station, your Worker Bees will have to test their speed and agility as they create an assembly line to produce food for their hive. This workshop focuses on how each individual in a team contributes to the bigger picture.
- Meet up in our Community Room for a feast of food you assemble yourself- build your own sundaes, decorate your own cupcakes, or assemble your own sandwich- you choose! Soft drinks, coffee and water provided. Alcohol available upon request (subject to additional fees).

Workshop Option #2: *Develop Your Team- From Larvae to Leaders*

Under the magnifying glass: This workshop enables your team to work together under direction of a Queen or King Bee and to overcome obstacles by creating strategies that produce positive results- or yummy honey!

- Work as a team to develop a large scale wall mural as each team member contributes to the creation of a larger picture in our Paint Box Exhibit. Each member's contribution is crucial in the overall look of this portrait!
- Sharpen your staff's presentation skills by participating in this science oriented workshop as each member learns about our Van de Graaf machine. After experiencing a demonstration your staff will be expected to give a demonstration of their own.
- Lead your group through a scavenger hunt through the museum. You'll have to work together to figure out where to go next, so pay attention to details and follow your leader!
- Develop your own post workshop refreshment as we give you lots of toppings for your own pizza! From pepperoni to cheese you can be as creative as you please! Soft drinks, coffee and water provided. Alcohol available upon request (subject to additional fees).

Workshop Option #3: *Overcoming aMazing obstacles- Team Challenge*

(requires at least 25 people to participate)

Under the magnifying glass: This workshop challenges your team by enabling them to focus on the smallest details, work under pressure and rely on each other to get the job done! Your ants will march to a different tune once they tackle these big hills!

- Your group will be split into 2 teams, each team designating a leader. Each leader will make their way from 4th floor to 1st floor by way of our Tower Exhibit, compromised of slides, climbing nets, tubes and tunnels. Each team leader will then be in charge of getting their entire team to 1st floor using walkie-talkies. The team that completes the tower the fastest wins!

- Do you trust your team members? Well, you'll have no choice when we mix up our facts at Amazement Square and have to rely on your team to fix them! We'll equip your group with a backwards scavenger hunt that forces your team to think through problems and create strategies together. Once they complete the challenge, they can review the team's strengths and weaknesses in this challenge.

- Human Chess- your team will be split in two and will battle each other out through a classic game of strategy.

- Timed Relay- can your team function under pressure? Let's hope so or this challenge will make a mountain out of an anthill! Your team will be given 5 items that they must dig out of our Archeology Dig Box. Once retrieved, they must find their correct location in the museum, all before time runs out!

- Just as cells are the building blocks of life- your staff are the building blocks of your organization. Your team will be given the opportunity to realize their individual value as they take part in our Edible Cell program. As your team creates their post challenge refreshments, we will also provide soft drinks, coffee and water. Alcohol available upon request (subject to additional fees).
